Subject: RE: LDW Monthly Meeting - March 23 Draft Agenda

---

Hi, Valerie –

I see I've missed the window on the agenda. I'm going to put in a pitch for sending the draft agenda in Word, or even in the body of an email, going forward.

The agenda is wonderfully vague, and most everything I want to discuss is on there somewhere. But to make sure I don't surprise you all, here's some of the random input I was thinking of providing. No change to the agenda needed.

Discuss "test case" in upper reach: How will the design address, say, the first half mile of the Lower Reach (RM 3-3:5).  
Discuss how you see this.

train cars/transloading: what can we do to move planning forward.

Norfolk plans

EE/CA and edges of EMJ

Rhone Poulenc tech meeting

How to facilitate RT input on 30% design? Site tour in upper reach?

Need to revive discussion on sediment modeling?

Discussion of how to ensure construction start in 2024

BA / BO - timing relative to consultation process

carbon plots – not done. Discuss options.

Results of the z-layer cores - plan to get z-layer samples in middle reach

Data - is database frozen? did they include EMJ data?

DWP and port's piece of the shoreline

T-117

Boeing Plant 2 sampling??

Other EAAs?

Middle Reach –

Timing of sampling – any more details?

Middle Reach Outreach – what does it mean?

SIM contact? (no debris removal response so far)

EAA sampling – slip 4

Property owners and access?

Schedule - Need to combine middle and upper and add contracting process steps.

radio program, also next thing (Juntos podemos)

Stakeholder meeting topics: GTWWTS? Other?

Upper Reach

DER feedback from EPA

30% design

Middle Reach

Outreach update

MR sampling design status

Checklist Items

Schedule – need combined schedule

Upcoming Project Milestones, Deliverables, Field Work

Community/Public/Media (e.g. Roundtable Meeting Schedule)  
Miscellaneous – Laura Knudsen and Meshach Padilla working together  
Upcoming Agenda Topics

Subject: LDW Monthly Meeting - March 23 Draft Agenda

Hello Elly,

Attached is the draft agenda for the March 23 meeting with EPA and LDWG.

Please review and let us know if you would like to see any additions/revisions.

Thank you,

Valerie Lu | ANCHOR QEA, LLC
